

OLD MONEY ORDERS FOUND IN YPSI OFFICE

The postal savings depository opens at the Ypsilanti postoffice Friday and the hours will be those governing the money-order department, from 7:30 a. m. to 5:30 p. m. Accounts may be opened and deposits made by any person over 10 years of age. Accounts must be opened in person by the depositor or his authorized representative, but thereafter deposits may be forwarded to the office by mail. Only individuals, not firms, may be depositors.

No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit, and not more than \$100 may be deposited in any one month. Amounts less than \$1 may be saved for deposit by the purchase of 10-cent postal-savings cards and adhesive 10-cent postal-savings stamps. Each postal-savings card contains blank spaces to which savings stamps may be affixed from time to time. Interest will be allowed on all deposits at the rate of 2 per cent per annum, payable annually, but no interest will be paid on money which remains on deposit for a fraction only of a year. Interest is reckoned from the last day of the month next following that in which deposited. A depositor may at any time withdraw the whole or any part of his deposits with interest payable by surrendering savings certificates.

In case of the death of a depositor the amount to his credit will be paid to the executor or administrator of his estate upon compliance with requirements. A depositor will be permitted to exchange the whole or any part of his deposits in sums of \$20, \$40, \$60, \$80, \$100, or multiples of \$100 up to and including \$500, into United States registered or coupon bonds, bearing interest at the rate of 2 1/2 per cent per annum, payable semi-annually. Postal-savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal, or local authority.

In accordance with the opening of this entirely new service, it is interesting to recall the establishment of another department of the postoffice, that of the money-order department. It was established on September 10, 1867, and on that first day there was but a solitary order bought. This was in the sum of \$1.78 and purchased by John Bengel who thereafter was a steady patron. The fee was then 10 cents, instead of three, as now. Money-order No. 29 was bought by William M. Osband, and he is the only person living in Ypsilanti at present who patronized this department within the first two months. From September 10 to the close of the month only 10 orders were issued. In October the number had crept up to 19. Now the department has grown to such proportions as to require the attention of one clerk especially, and every day there are issued two or even three times as many orders as were bought during an entire month at that period.

Election at Free Church Tuesday

An election will be held in Free church Tuesday afternoon, August 29th, between the hours of 2:30 and 4:30 for the purpose of choosing a delegate and an alternate to attend the Lay conference to be held in Flint September 22d.

At the same time and place a Board of Trustees for Free church will be chosen for the coming church year.

The present board is composed of Ward Conklin, Robert Clark, Clarence Sayles, John D. Forshee and George McDougall. All members of the church 21 years of age and upwards are eligible to vote and to hold office. One-third of the board of trustees may be made up of non-members of the church.

The election board for Free church consists of Edwin Pooler, Will Strang, and George McKin. The voting will be by ballot.

SUES TO GET LIFE SALARY

Pastor of Boston Congregation Says It Broke Contract.

New York, Aug. 24.—Edward B. Browne of Youngstown, O., is suing the Congregation Mishkan Tefl of Boston for breach of contract. He says the congregation hired him as its pastor for life, but discharged him. He asks that his salary be continued while he lives.

The action was brought in New York county.

ATWOOD FLYING OVER NEW YORK

Now Probably in Neighborhood of Metropolis.

SPENDS NIGHT AT CASTLETON

Aviator Is Greeted by Enthusiastic Crowds All the Way from Fort Plain to His Stopping Place Near Albany.

New York, Aug. 24.—Atwood was up long before the folks of Fort Plain, who spent all night marching through the main street cheering their visitor from the skies, had had their sleep out and at 5:30 a. m. he was down on the field where his machine had lain all night.

He was off at 7:30 with the town folk waving farewell and he swung down over the haze on the Mohawk valley bound for Castleton, nine miles out of Albany.

Before he left Fort Plain he said that he preferred landing at Governor's Island, where he could find clear space for his descent into New York, rather than attempt to land where rough currents from ocean winds might make things ticklish.

Schenectady was the next town of any size to hear the whirr of Atwood's motors. At 8:45 crowds that blackened the housetops and the hills around that city saw something black coming poking out of the mists that held the Mohawk, saw the black thing rise and turn hawklike and then rigged out a cheer that Atwood never heard, for he did not come nearer than half a mile of the town.

Atwood was then flying not more than a hundred feet above the river. Leaving the river course, he dipped above the huge plant of the General Electric works while the thousand odd employees cheered from the roof and windows, and then his plane grew dim and finally disappeared toward the Hudson and Albany. It was 9:02 when Albany first saw him flying over the southern end of the city. He was making good time and was pointing straight for the Hudson. He did not stop at the capital, but kept on for Castleton, nine miles farther on. He hung above Castleton for a moment, then landed on the ball grounds. Atwood said that the air was just right for his flight from Fort Plain to Castleton, a distance of some seventy miles, which he covered at an average speed of a mile in two minutes.

When Atwood was through being worshipped he climbed into a motor and started off to Albany to see about gasoline and the pontoons with which he wants to equip his biplane before he starts down the Hudson for New York. The pontoons, long metal cylinders which support the biplane should it decide on a watery course, are made of aluminum and one would be attached to each side of the plane. They hold sixty cubic feet of air. Atwood didn't want to go down the Hudson until they were on.

Atwood stayed in Castleton for the night and left for Poughkeepsie at 5 o'clock this morning. If his plans work out New York should see the overland biplane around 6 o'clock tonight.

INCLEMENT WEATHER MAKES BUT LITTLE DIFFERENCE WITH ROBBINS CIRCUS

The Robbins Circus landed this morning and proceeded in much the same way as though the sun were its brightest. Although somewhat delayed, the parade made the circuit and in the afternoon a fairly good crowd assembled for the performance.

Efforts to protect the audience from inconvenience this evening are being made and a good show is promised. Straw will be strewn about the grounds in muddy places and the main tent will be well covered by water proof canvas.

The show carries 250 people and 110 head of animals including horses, also the only auroch now on exhibition.

GREAT PARADE OF G. A. R. MEN

Stirring Yet Pathetic Spectacle Viewed in Rochester.

GRANT AND SICKLES CHEERED

President Taft Talks of Peace—Says When His Own Troubles Appear Large He Thinks of Those of Lincoln.

Rochester, N. Y., Aug. 24.—Twenty thousand members of the Grand Army of the Republic, representing every department in the United States, marched for two hours through two miles of streets lined with cheering crowds.

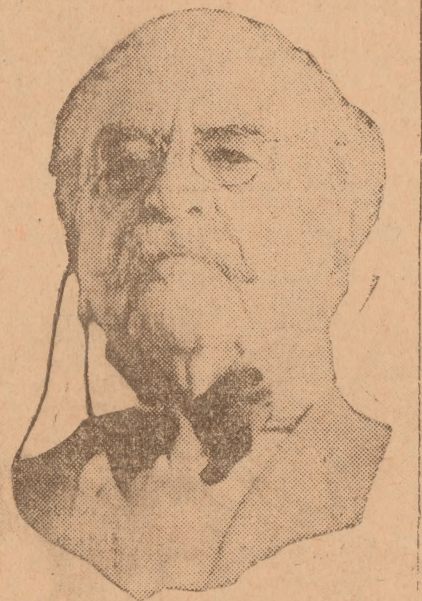

It was, perhaps, the greatest parade the veterans have participated in in the last decade, and for many of the old soldiers it will be the last. Stirring as the spectacle was, it was not without its pathos. Many a veteran started out bravely, with figure erect, and succumbed before the march was over. Relief stations and hospitals were kept busy all morning attending to the wants of the veterans.

The parade was led off by the regulars of the Twenty-Ninth infantry of Fort Porter, Buffalo, with their military band. Next came the national guard and naval militia companies. Commander-in-Chief John E. Gilman rode in a carriage.

General Frederick Dent Grant, with his aide, was in a carriage and was cheered along the line of march. Another conspicuous figure in the parade was General Daniel E. Sickles.

The sight of 20,000 veterans of the Civil War recalling the dark days of that struggle, gave a twist to President Taft's address before the campfire. Mr. Taft had come to talk of peace and he held his address principally to this topic, but the reflection of the immense struggle which had centered about the old men who marched before him in the parade contrasted in his mind the political struggle that has seethed about him for the last few months and which was only temporarily relieved by the adjournment of congress, and his thoughts turned naturally to this channel. He said when he was tempted to think of his own troubles he had only to think of the troubles of Lincoln.

"When we contemplate what we have lived through and what we have accomplished," he said, "it ought to encourage us to feel that the problems before us are slight in comparison with those we have solved. Our very prosperity and the accumulation of our wealth have brought other problems,

elusive and difficult in their settlement and have prompted a higher civic ambition with reference to the condition of the individual and his equality of opportunity, and with reference to use of wealth by its owners, and restrictions upon methods of use unduly oppressive to competitors and to the public at large. These higher aims for the betterment of society; these new evils growing out of the concentration of wealth, and these combinations which properly controlled are a great good in the reduction of the cost of production, have invited from the active-minded of today suggestions of remedies that are so extreme that the medicine to many of us seems worse than the disease. Those who are charged with the responsibility and sobered with the difficulties find ourselves in the middle of the road resisting the tendency to socialism on the one hand, and the inertia of reactionary contentment with present evils and ambition for greater concentration of financial power on the other; but we are gradually solving the problem. This present does not bring difficulties so great as you had to meet and overcome in '61. It may be a longer fight, because it will not involve violence or the shedding of blood, but it must and will be solved peacefully and by the earnest effort of the level headed, the practical, and the courageous among us, and by reducing the influence of the demagogue and the critical extremists on the one hand, and the reactionary influence of combinations of wealth on politics and progress on the other.

Whose Wire Rope Plant Is Shut Down Indefinitely.

© 1911, by American Press Association. ROEBLING'S SHUTS DOWN

Wire Rope Plant Closed on Account of Lack of Orders.

Trenton, N. J., Aug. 24.—The wire rope shop of the John A. Roebling's Sons company, one of the largest establishments of its kind in the country, has been closed for five days and, according to a statement made at the works, will remain so for an indefinite period. Lack of orders, coupled with general conditions prevailing in the industry were given as the reasons for the shut-down.

The company attributes the conditions of industry to the recent tariff agitation and the uncertainty as to what the next session of congress will bring forth.

HOUSEBREAKERS BUSY ABOUT YPSILANTI—NO RESULTS YET REPORTED

A number of unsuccessful attempts at house-breaking have been made in the city during the past few days.

About 12:30 Wednesday morning an attempt was made to gain entrance to the home of Clifford Thoms, 740 Lowell street, by means of a bedroom window on the first floor. Mr. and Mrs. Thoms who were occupying the bedroom down stairs were aroused by hearing a man fumbling about the cellar way which is just beneath the window. The man stepped on the cellar doors and removed the screen from the window before they made any move to frighten the intruder away. Just as the man was climbing in the window Mr. Thoms called out to him and he immediately dropped outside and ran to the back of the residence where he was seen by some of the neighbors. Mr. Thoms did not care to tackle the man alone, not knowing whether he was armed or not. The next morning sticks which were evidently taken from their wood pile and were undoubtedly for use in holding up the window, were found under the window. It is the opinion of Mr. and Mrs. Thoms that someone had seen Mrs. Thoms draw money at the bank in the afternoon and were watching her. As both were out in the evening she carried the money with her until her return about 11 o'clock when anyone watching might have seen her hand the money to her mother as the curtains were up and a light was burning brightly.

Another attempt was made to enter the home of S. J. Harvey on the same street about 11:30 the same night. The family were aroused by a noise outside and upon investigation they found a ladder placed to an upstairs window and a man half way up. He was frightened away before he succeeded in getting away with any goods.

Ann Arbor, August 23.—Emil H. Arnold has returned from Salt Lake City, where he attended the national convention of the American Optical association. Mr. Arnold was honored with the reelection to the office of registrar of the scientific section of the association.

TROOPS RESCUE EDMUND RICHTER

Greek Bandits Held German Engineer for Ransom.

KIDNAPERS ASKED \$250,000

The Affair an Incident of the Warfare Between Irregular Detachments of Greeks and Bulgarians.

Saioniki, Turkey, Aug. 24.—Dr. Edmund Richter, the German engineer who was captured by Greek bandits and held for a ransom of \$225,000, has been rescued on the Greek frontier. He is returning to Saloniki.

Dr. Richter was mapping on Mount Olympus, in the wild frontier region between Turkey and Greece, under the auspices of a German Geographical society, when he fell into the hands of the brigands May 25. The capture took place in Turkish territory. His escort of Turkish gendarmes was killed. Letters from Laloi, the bandit leader, demanding a ransom, were delivered soon afterward by Turkish villagers.

The German government acted promptly. A small army of Turkish soldiers was sent in pursuit of the bandits. At the same time representatives of the German government and of the geographical society searched the mountains, taking gold for the ransom of the doctor. For weeks the search was without result.

Recently the pursuit was abandoned, as it had been learned that Dr. Richter was held in the house of Delyannis at Tirnavos, in Greek territory.

Like Miss Ellen Stone, the American missionary who was kidnaped for ransom by a Bulgarian band in 1901 and freed on payment of \$65,000, Dr. Richter was captured not by ordinary mountain brigands, but by the "Greek National society," it is alleged. The capture was organized, it is charged, by Captain Strati, formerly a Greek officer, who once lived in America. The affair was an incident of the warfare between irregular detachments of Greeks and Bulgarians.

The ransom, it is assumed, was desired to further the partisan warfare breaking out anew in Macedonia.

PRESIDENT TAFT WILL TRY TO SCALE MOUNT RAINIER, OR TACOMA, 14,520 FEET

Washington, August 24.—President Taft has accepted an invitation to scale, or try to scale, Mount Rainier, or Mount Tacoma, when he visits the state of Washington on his September tour of the west. This mountain has an altitude of 14,520 feet and its peak is about 10,000 feet above the surrounding country. In case the president succeeds in climbing to the top he will have performed a feat in strenuity not paralleled even by his predecessor in the executive chair. Congressmen from Washington say that Mr. Taft will have to exercise extreme tact when he mentions the name of the mountain, for the rival cities of Seattle and Tacoma, each of which claims the peak as its own private wonderland, had had an age long dispute over the name. Tacoma calls the mountain Tacoma, while Seattle calls it Rainier. In case the president attempts to climb he will be accompanied by some of the noted mountain climbers of the northwest.

HETTY GREEN'S TAXES LOWER

Reduction of \$64,170 Is Allowed on Her Chicago Property.

Chicago, Aug. 24.—Hetty Green, "the richest woman in the world," was made richer when her real estate agent in Chicago wired her that reductions on her assessments amounting to \$64,180 had been allowed on her taxable property here.

Reductions were made on six pieces of property by the board of review.

BEATTIE MAKES FATEFUL THROW

Discards Four from Panel of Sixteen Jurymen.

DRAMATIC SCENE IN COURT

Automobile in Which Prisoner Is Being Brought from Richmond Is Nearly Caught on Railroad Track and Smashed.

Chesterfield Court House Va., Aug. 24.—There came a moment when a white faced young man with his lips between his teeth stood alone before fatal chance and played the gambler's game.

He was Henry Clay Beattie, Jr., on trial for wife murder and the game he played alone was that of trying to pick from a row of sixteen faces of tentative jurymen four in which there might lurk the shadow of a menace to him.

During the two days the judge and his counsel had gone over the venire, listening to the qualification of the farmers of Chesterfield to sit in judgment on the young fellow's life. Very carefully they had winnowed out sixteen men, according to the law of Virginia, who were to sit for a final elimination to the jury number of twelve. Judge Watson had with grave courtesy once more reviewed the list, had made each man stand and say that he was still impartial and would render a verdict in accordance with the evidence. All sat down but the young prisoner, who stood with his whitened knuckles braced on the table in front of him and looked from face to face in the jury box across the aisle.

Minutes passed and there was absolute silence in the little court room. Still his eyes passed slowly from face to face.

BRIDGE MATTER IS STILL UNDER CONSIDERATION

The matter of transferring the bridge contract with Carpenter and Anderson, contractors of Grand Rapids, to Contractor Bristol of the same city, with all of its details, which was one of the important matters for which the adjourned meeting of the Council was called, Wednesday evening, was taken up by the members and on motion of Ald. Stevens, referred to Committee on Bridges. The aldermen present were Stevens, Beal, Thomas, Worden, Whitman and McDermott. Mayor Townner presided.

An invitation from the League of Michigan Municipalities inviting the Council to the convention of the League to be held at Saginaw, Sept. 20-22, was read and a vote of thanks extended for the invitation.

A draft of an ordinance sent by C. A. Palmer, State Fire Marshal, concerning the regulation of storing of inflammable material in the city, was read and upon motion of Ald. Stevens was referred to the Committee on Ordinances and the City Attorney. The ordinance deals with the regulation of the storing of rubbish and combustible material also the handling of gasoline, naphtha, etc., and was accompanied by a request from the fire marshal that its adoption should be voted in Ypsilanti.

A communication was presented by P. T. Colgrove, president of the Michigan State Good Roads association, requesting that the city send delegates to the annual meeting at Lansing, Aug. 28-31. The invitation was received and filed on motion of Ald. Stevens.

A communication from W. C. Farrington requesting a reduction of the assessment against him for the Adams street sewer was presented, and upon motion of Ald. Stevens, the same was filed for further consideration. Several petitions and communications were received. One by Tom Michos, requesting permission to use necessary premises adjoining his store for material during the repair of the sewer, was granted.

Petition for an electric light at the intersection of Normal and Emmet streets was filed over the signatures of a dozen residents of that vicinity. The matter was referred to Commissioners of Public Works upon motion of Ald. Stevens.

Dr. Post asked the city that a quantity of gas which he claims is accumulating at the corner of Washington and Congress streets in the sewers should be removed. The request was referred upon motion of Ald. Stevens to city street commissioner.

Upon motion of Ald. McDermott a petition for a cement walk at No. 18 and 20 Lincoln street, presented by Frank Sinkule, was granted.

A number of residents petitioned the Council for an electric light to be placed midway between Chicago and Harriet streets. Ald. Stevens moved that the communication be referred to the Commissioners of Public Works.

Upon motion of Ald. Stevens permission was granted William B.

OIL STOVE CAUSES FIRE

THOUSAND PIECES OF VALUABLE POTTERY ARE DESTROYED BY FLAMES.

Ann Arbor, August 24.—An overheated oilstove set fire to Herman C. Markham's property on South Seventh street while Mr. Markham was at dinner at noon Wednesday, completely destroying the workshop and all of the molds that had been accumulated by seven years of hard work. Markham pottery is now considered by some to be the equal of the famous Rockwood ware, owing in part to certain chemicals in the clay found on Mr. Markham's farm. The pottery sells for from \$1.50 to \$50 and over a piece. Over 1,000 pieces were destroyed. Five hundred and fifty of these were intended for Dr. Thieme's mantel piece.

Mr. Markham is undecided about rebuilding. He has at times contemplated moving to the Pacific coast on account of the climate there permitting work all the year, while here half the year is necessarily lost. The pottery was the only building destroyed. The firemen arrived in time to prevent the barn from receiving more than a scorching.

THURSDAY, AUGUST 24, 1911

OF LOCAL APPLICATION TO OUR GAS QUESTION.

The broad grasp of economic questions which the Canadians are taking and the firm grasp as well, while it is attracting thousands of our citizens to their country, it is at the same time offering many valuable lessons to us, which we may profit by if we will. The following editorial comment by the Detroit News on the recent acquisition by the city of Winnipeg of her street railway, light and power system contains some arguments of local application in our endeavor here to municipalize our gas plant.

The News says, "Winnipeg has cut the Gordian Knot while less aggressive cities are trying to untie theirs. That bustling Western city of 150,000 has taken the final step in municipalizing her street railway, light and power systems, the purchase price of the private monopolies being \$15,000,000. She will take over 200 cars and 66 miles of tracks, which in 1909 carried 26,000,000 people, and she will, in addition, possess a complete light and power plant, which will enable her to offer to manufacturers the cheapest power available in the north-west, thus assuring her continued supremacy as the metropolis of the last West. The business men of Winnipeg, not being tied up with the bonds of a decrepit public service corporation, were able to meet the traction situation in a public spirit. The financial ramifications of the street car company among the banks of Winnipeg were fortunately not such that the leading men were obliged to act as buffers between the company and the people, so that when the opportune moment came for the purchase of the property and the institution of a municipal system, Winnipeg stood at a unit. But that Winnipeg will be immeasurably benefited by this emancipation from the traction menibus is a foregone conclusion. Watch her reap the rewards of her civic courage."

In connection with the advisability which we have been urging of the city of Ypsilanti owning her municipal gas plant, we have already emphasized its importance to our industrial growth. The competitive advantage of being able as a municipality to offer cheap light and power to manufacturing enterprises is one of the largest assets which accompanies the municipalization of these natural monopolies.

The owning of the gas plant in Ypsilanti by Ypsilanti will give us cheap fuel for our homes, cheap lights for our homes and will give us a competitive power unit which will prevent any gentleman's agreement between two non-resident private corporations now furnishing us with light and power. The granting of a thirty-year franchise to the gas company will effectually tie our hands from appropriating these economic principles for our own mutual benefit and advancement in every possible material way.

We could ascertain what the present fair valuation of the Ypsilanti gas plant is and ascertain whether the gas company is willing to sell at a fair price. If not, then the city should not tie its hands by any franchise, but proceed to the installation of a gas, light and power plant of its own, in connection with its present light and water plant, all to be owned and operated by the city for the city.

"WHAT IS SOCIALISM?"

(Continued)

Woman and the Home.

"Women, says the Socialist, would be offered precisely what is offered to men. Just as working-men would be paid the full value of their product, so would working-women receive a remuneration equal to whatever their labor produced. No woman would, with this equality of opportunity, be compelled to prostitute herself in marriage for the mere sake of a living, and the woman that did marry, having thus no reasons but the highest for the formation of such an alliance, would through the improved economic condition of her husband, be relieved, as he would be, of that fear of poverty which Henry George well described as far worse than poverty itself. Whether at work in the factory or in the home, woman would be recognized as an economic force in the economic commonwealth, and would be entitled to the suffrage, and, thus for the first time in history finding her emancipation, would be better fitted for those duties of motherhood, properly recognized and provided for by the state, which nature has designed her to perform."

Some criticism has been directed towards the Socialists to the effect that they are opposed to marriage. "But the best answer to this criticism to me seems to lie in the fact, that, for the most part, they marry. Here would, if it were one of their doctrines, be a doctrine that even in our Capitalistic society, they would put into practice. But instead of that, they

take wives and bring up children, insisting that, in a Capitalistic country where less than half the families live, free from debt, in their own homes, the greatest enemy to the family is that poverty which it is the chief aim of Socialism forever to end."

GOVERNOR WILL CONSIDER
Replies to Grand Rapids Request for Strike Legislation.

Grand Rapids, Mich., Aug. 24.—In a letter to the common council Governor Chase Osborn states that he will carefully consider the request for better labor legislation should a call for a special session of the legislature be issued.

This response from the governor is in reply to a resolution adopted unanimously and forwarded to him, asking that he include in his special call the questions of compulsory arbitration and a law aimed against the importation of men from outside cities and states to take the places of striking workmen without their employer first having informed them of the true conditions existing in the city when they are hired.

Mr. and Mrs. O. R. Darling and sons, Allyn and Lawrence, have been spending a few days at Clear Lake.

Mrs. W. H. Parker of Napoleon, who came on to attend the Scott-Crittenden wedding, was an over Sunday guest of her brother, Charles Crittenden, and family.

Miss Gertrude Tabor returned Thursday from Reading, where she has been visiting.

The next meeting of the Ladies' Helping Hand society will be held with Mrs. D. R. Owen, the afternoon of Thursday, September 14.

Mr. and Mrs. Charles Hayden were given a very pleasant surprise Sunday by the brothers and sisters of Mrs. Hayden and their families, the occasion being the birthday of Mr. Hayden, while Mrs. Hayden's birthday had fallen on the Sunday previous. Those present were Mr. and Mrs. Clifford Earl and daughter Gladys of Detroit, Mr. and Mrs. Irving Hirth and son of Ann Arbor, Mr. and Mrs. Will Moore of West Sumpter, Mr. and Mrs. Claude Moore and three children, Mrs. Mary Cooley and daughter of Ypsilanti, Miss Ruth Foster of Elkhart, Indiana. The party spent the happy hours on the river flats. A bountiful dinner was spread. Mrs. Hayden was presented with a beautiful linen table-cloth.

OLD MURDER CLEARED UP

ILLINOISAN IS SAID TO HAVE
CONFESSED HE KILLED
PEORIA MERCHANT.

Peoria, Ill., Aug. 24.—In the arrest of John Phillips at Fulton, Ill., a murder mystery of twelve years' standing has been solved, if the alleged confession of Phillips proves to be genuine. John Ellinghaus was shot and killed at his place of business, Feb. 14, 1899. Ellinghaus was awakened by a noise at midnight and in company with his wife descended the stairway and was killed. The police obtained no clew at that time, but Phillips was suspected.

Phillips was found at Fulton, Ill., wandering the streets, seemingly demented, and when taken in charge by the village marshal exclaimed: "I'm the man who shot Ellinghaus of Peoria." He is said to have asserted that he was tired of being hunted by officers and that his mind was nearly wrecked by the pangs of conscience. An officer has been sent for him.

WIDOW DRIVES 1,000 MILES

HOUSEHOLD GOODS AND CHICK-
ENS ALMOST FILL BUSSY, SO
BABIES' FEET PROTRUDE.

Miller, S. D., Aug. 24.—With four children, the oldest twelve years of age, driving in a one-seated dilapidated top buggy, Mrs. Sarah Connor passed through town on a 1,000-mile trip from Moose Jaw, Canada, to Wheeler, S. D.

A coop of chickens was in the buggy behind the seat. The clothing and fixtures of the family filled the vehicle half way to the top. The feet of the children were thrust out of the sides and front.

The woman's husband died five months ago. Failure of the crop obliged the family to leave the homestead.

ALLEGED WIFE MISSING

DISAPPEARS AFTER ALLEGING
SHE WAS WIFE OF BLOOM-
INGTON MILLIONAIRE.

Decatur, Ill., Aug. 24.—Efforts are being made to find Mrs. Melissa Zink of Fountain county, Indiana, who appeared before John Allen, clerk of the circuit court here, several days ago to start suit for a portion of the \$1,600,000 estate of the late George W. Funk, wealthy land owner, and years ago member of the state legislature from Bloomington. She asserted that she was his common law wife.

The woman had an agreement, said to have been signed by her and Funk before a justice of peace in Decatur in 1898.

Upton Sinclair Wants Divorce.
New York, Aug. 24.—Upton Sinclair writes the Sun a statement, saying that he will apply for a divorce from his wife, Meta F. Sinclair, naming as co-respondent Harry Kemp, a poet of Lawrence, Kan.

This response from the governor is in reply to a resolution adopted unanimously and forwarded to him, asking that he include in his special call the questions of compulsory arbitration and a law aimed against the importation of men from outside cities and states to take the places of striking workmen without their employer first having informed them of the true conditions existing in the city when they are hired.

LAD ACCIDENTALLY SHOT

Boy Near Cass City Loses Arm in Hunting Accident.

Cass City, Mich., Aug. 24.—Charles Klinkman, aged sixteen years, has been a patient in Pleasant Home hospital since Sunday when he was accidentally shot while out hunting hawks with a companion near his home, three miles east of here. The wound was so severe that it was necessary to amputate one arm below the elbow.

Klinkman has been peculiarly unfortunate. Five years ago powder blew into his eye while he was celebrating the Fourth and his sight was impaired. About a year later he attempted to ride a cow home from pasture and when he fell from the animal his arm was broken.

MAN STRUCK BY FLYER

George C. Sterling, Battle Creek Merchant, Victim of Train.

Battle Creek, Mich., Aug. 24.—George C. Sterling, one of Battle Creek's foremost citizens and business men for many years, was instantly killed near the McCally street crossing of the Michigan Central.

Mr. Sterling owned a fine home on West Van Buren street from whence he was making a short cut to the business district, via the railroad right of way, when he was struck by the Wolverine flyer. His body, thrown fifty feet, was so mutilated that identification was reached only through papers and the tailor's mark on his clothing. Mr. Sterling was a shoe merchant here for years.

BIG RATTLER IS SLAIN

Escaped from Box Last Spring and Has Lived Under a House.

Sturgis, Mich., Aug. 24.—When Leo Butler arrived here from the south early in the spring, he brought with him a large box which contained several varieties of snakes. One, a rattler, was left too long in the sun, which woke him up and he escaped.

He has been found by a local coal dealer and was beaten to death with a club. The snake had been living under a house and had been seen several times by children. It measured six feet in length and eight inches around and had nine rattles.

TWO BOYS LOSE LIVES

Sons of Ohio and Pittsburg Resorters at St. Ignace Drown.

St. Ignace, Mich., Aug. 24.—Nelson Staley and Paul Kreiger, aged fourteen, of Pittsburg, Pa., were drowned while bathing in the Straits of Mackinac. The bodies were recovered after being in the water about twenty minutes, but all efforts at resuscitation were unavailing.

The bodies were taken home for interment by the parents of the boys who were resorting here for the summer.

Fear Boy Shot Himself.

Jackson, Mich., Aug. 24.—Parties are searching the woods of Parma township for fifteen-year-old Myron Harrington, fears being entertained that the boy accidentally shot himself. Saturday he secured a revolver from his grandmother, saying that he wanted to shoot a woodchuck in his father's cornfield. He failed to return and no trace of him has been found.

Lightning Was Gladwin Firebug.

Gladwin, Mich., Aug. 24.—The three barns that were burned recently in this vicinity and supposed to have been the work of incendiaries, it has been discovered, were burned by lightning. The owners were Germans and failed to explain this at first. They carried no insurance. No firebug is at work.

Pitches from Car; May Die.

Grand Rapids, Mich., Aug. 24.—While waiting for a car John Ole suddenly lurched forward, was struck on the head and narrowly escaped falling under the trucks. He is now in a hospital unconscious. His brother who was with him cannot explain the mystery. Attempted suicide is scorned by his relatives.

Sebewaing Girl Alleged Thief.

Vassar, Mich., Aug. 24.—Ila Refar, seventeen years old, of Sebewaing, was arrested charged with the larceny of a gold watch and chain and other articles of jewelry from the Columbia hotel here last July.

BEATTIE MAKES FATEFUL THROW

(Continued from Page 1)

To face and the muscles of his jaw tweaked and twittered. Suddenly his shoulders went back with a quick jerk of decision. He sat down and with a pencil struck off four of the names on the list. The clerk read the names of the four jurors thus eliminated.

So the young man accused of having murdered his wife on a lonely road in Chesterfield county a month ago made his discard and was ready to play the game with death.

The jury that is to try Beattie is one of comparatively young men, the average age is between thirty and forty.

One incident in the day, terrifying during the brief minute of its occurrence, was not scheduled in court practice. When Beattie, surrounded by county detectives, was being brought by automobile over the sixteen-mile road from Richmond to the court house the course lay over the Atlantic Coast Line tracks at Centralia. The road approaches the tracks by steep embankments on either hand which obscure sight of the rails for any distance away. The automobile was climbing the rise at high speed when the cannon ball express of the Atlantic Coast Line roared around a curve less than a hundred feet away.

The chauffeur put on his emergency brake and stopped the car so close to the tracks that the engine's pilot grazed the automobile's hood.

The Bargain Counter.

This is a good test of memory as well as observation. The bargain counter may be a table in the middle of the room. On the counter place a number of articles—toys, books, vases, any small objects at hand.

One child is chosen to take charge of the shop, and a second one, after carefully looking over the collection to notice and remember every article, leaves the room. While he is absent a third person selects and hides one of the pieces. When the second child is called in he must try at one guess to say which of the articles was sold in his absence. If he guesses correctly he may be the next shopman.

Tree Puzzlers.

What is the double tree? Pear.
What tree is nearest the sea? Beech.
Name the languishing tree. Pine.
What is the chronologist's tree? Date.

What tree is adapted to hold shirt waists? Box.
What tree will keep you warm? Fir.
What is the Egyptian plague tree? Locust.

What is the tree we offer friends at meeting and parting? Palm.
The tree found in churches? Elder.
The fiery tree? Burning bush.
The tree used in wet weather? Rubber.

The tree that protects from the fierce heat of the sun? Umbrella.—Philadelphia Ledger.

Some Old Proverbs.

A blind man is no judge of colors.
Fierceness is often hidden beneath beauty.
There is often anger in a laugh.
A dress often hides a deceiver.
A foolish word is folly.
Hope consoles the persecuted.
The well fed forget the hungry.
Idleness is the fool's desire.

Next of the Grebe.

The grebe, or dipper, although awkward on land, is an expert diver and has the power of remaining long under water and thrusting out the bill for a supply of air. The little grebe builds a floating nest, which she removes at the approach of danger, paddling it with one foot.

Lions Like Lavender.

Lion tamers frequently perfume themselves with lavender. There is, it is said, no record of a lion ever having attacked a trainer who had taken the precaution of using this perfume.

Filling the Sugar Bowl.

I like to help Susan by filling the bowl
With sugar so white and sweet, you know.
I put in a lot
And pat it all down
And make it so smooth and neat, you know.
With never a hump
Or sign of a lump,
For the lumps I always do eat, you know.

AUTOMOBILE SPEED KING OF THE WORLD.

THREE VIEWS OF "WILD" BOB BURMAN, WHO WILL BE AT THE MICHIGAN STATE FAIR AUTO RACES WITH HIS BIG BENZ CAR.

This is the man who has traveled through space faster than any human being ever traveled before and lived. He has dared to do something that no other mortal ever accomplished before, and through his daring has gained the title of the "World's Speed King." Robert Burman is shown here at the wheel of the monster Benz car which he will pilot in the Michigan State Fair auto races. Burman is the holder of the world's straightaway records for the kilometer, mile and two-

mile distances, and during the past five years has left behind him a trail of records broken and victories won. Burman is one of the most peculiarly constituted men in the world today, living what might be called a dual existence. In every day life he is quiet and unassuming and a thorough business man, but behind the wheel of a racing motor a mania seems to seize him and Burman becomes a man semi-frenzied in his desire to conquer time and set space at naught. Unlike for-

mer drivers who have reached the pinnacle of fame in the world of speed, Burman refuses to retire from hard fought competition with others and relies upon exhibitions of his skill to increase his fame.

Traveling through space at the rate of almost two and one-half miles a minute is not conducive to the best of complexions, so the speed king has devised the unique mask shown above to protect his face during his thrilling drives in his monster Benz car.

They Eat Much Meat.
The people of the south are large
meat consumers, but small meat pro-
ducers. Statistics show that south-
erners consume more meat per capita
than any other section of the coun-

can compete with North Carolina

meat, especially pork.—Frank P.

RALPH ROSE TO COMPETE.

Great Shot Putter to Get In Shape For
Next Olympic.

Desirous of making the next Amer-
ican Olympic team, Ralph Rose, the
champion shot putter at the various
weights, is coming out of his shell to
prepare for the iron sphere event in
the 1912 Swedish games. The native
son's determination to fight for a place
on the big team no doubt will send a
thrill into the other shot putters when
they learn of this.

Rose holds all kinds of records in the
shot put. He established the world's

record with a put of 51 feet in San
Francisco back in 1909. He won his
event in the London Olympic games
without the least bit of trouble.

The San Franciscan is credited with
67 feet 7 inches for the eight pound
57 feet 3 inches for the twelve, 51 feet
65 inches for the fourteen, 43 feet 9½
inches for the eighteen, 40 feet 3½
inches for the twenty-one and 38 feet
2½ inches for the twenty-four, besides
his world's record put with the sixteen
pound.

U and I Women Meet.

The U and I Helping Hand society
was entertained Wednesday afternoon
at the home of Mrs. Elmer Patterson
on East Congress street. Cards were
played as usual, and the first prize
went to Mrs. William Tuttle, the sec-
ond to Mrs. Charles Maddox and the
third to Mrs. Arthur Lamb. After the
playing was finished, musk melon and
watermelon were served by the hos-
tess. Next Wednesday's meeting will
be held with Mrs. B. C. Misener, 224
River street.

King's Circle Have Picnic.

The annual picnic which the Do
What You Can Circle of the King's
Daughters held Wednesday in Pros-
pect park was a very happy success.
A dinner, most appetizing and boun-
tiful, was partaken of at one o'clock,
and the rest of the time was spent in
visiting. There were a number of in-
vited guests, among those being Geo.
Gill and Miss Gill, Mrs. N. C. Carpen-
ter, James Holmes, John McDougall
and Jewett Amerman.

HIDDEN DANGERS.

Nature Gives Timely Warnings That
No Ypsilanti Citizen Can Afford
To Ignore.

DANGER SIGNAL NO. 1 comes from
the kidney secretions. They will warn
you when the kidneys are sick. Well
kidneys excrete a clear, amber fluid.
Sick kidneys send out a thin, pale
and foamy, or a thick, red, slimy
urine, full of sediment and irregular
of passage.

DANGER SIGNAL NO. 2 comes from
the back. Back pains, dull and heavy,
or sharp and acute, tell you of sick
kidneys and warn you of the approach
of dropsy, gravel and Bright's dis-
ease. Doan's Kidney Pills help sick
kidneys. Here's Ypsilanti proof:
W. H. Hall, 513 N. Adams St., Ypsi-
lanti, Mich., says: "Short use of
Doan's Kidney Pills, procured from
Weinmann-Matthews Co.'s Drug
Store, convinced me that they are an
excellent kidney remedy. They en-
tirely relieved me of pain in the small
of my back and difficulty with the
kidney secretions. I cheerfully recom-
mend Doan's Kidney Pills."

HAND DEFEAT TO ANN ARBOR

The Ypsilanti golf team handed the
Ann Arbor players an overwhelming
defeat at the Washtenaw Country
Club links Wednesday afternoon.
About 26 players were entered in the
match which was called at 2 o'clock.
The supper which was given by the
Ypsilanti players who were the losers
in the flag day contest a number of
weeks ago, was attended by fifty
guests. All attending report a fine
time.

The ladies of the W. R. C. will serve
a supper at the home of Mrs. Stanton
Ferguson, Friday afternoon from 5 to
7 o'clock. 15 cents. 824*

PIONEER FARMER CRUSHED BY TREE, DIES OF INJURIES

Rumble Wortley who resides four
and one-half miles south of Ypsi-
lanti, died Wednesday night as a re-
sult of being pinned beneath a large
oak tree which he was attempting to
cut down.

Mr. Wortley started out in the
morning to cut some trees which were
in a back lot on his farm, as he did
not return at noon the family became
anxious and telephoned to some of the
neighbors to assist them in searching
for him. A cousin, Miss Coe, 17 years
old daughter of Mr. and Mrs. Arthur
Coe, found him shortly after noon
lying face downward underneath a big
oak log. She secured a rail and with
difficulty succeeded in prying the log
from his body and ran for help. A
physician was summoned who found
that although no bones were broken
he had sustained internal injuries. He
regained consciousness but at 6 o'clock
died.

Mr. Wortley, who was 71 years old,
was born in England, and came to this
country when a young man. He lo-
cated on the farm at Coe's Corners,
four and one-half miles south of Yp-
santi, where he has made his home
for the past 41 years. He leaves be-
sides his wife one invalid daughter.
The funeral will be held Saturday af-
ternoon at 2 o'clock at the late resi-
dence.

Normal Graduates Get Good Positions

A number of Normal graduates
have secured good positions in the
schools at Detroit for the coming year.
Among the number are E. G. Gibb,
who is also a graduate of the Univer-
sity, will teach commercial work in
Detroit Central high school at a sal-
ary of \$1,500, which is higher than
ever paid there for that position;
Hiram Chapman, who was principal at
Marlette last year and is also a Uni-
versity graduate, will teach mathe-
matics and science in the same school
at a salary of \$900. Edward Steimle
will be assistant to the physical direc-
tor of Central high school. Ivan Chap-
man will be promoted from the East-
ern high to first assistant in the com-
mercial department of the Western
high. Carl Barlow of the manual
training department, has been select-
ed to fill the vacancy of principalship
of the Fairbank school during the ab-
sence of Principal Caswell who has
been given a five month's leave of
absence.

VOTE ON I. C. STRIKE

Paducah, Ky., Aug. 24.—About 80
per cent of the votes of the federation
of Illinois Central employees have been
received by the federation in session
here and 75 per cent favor a strike if
the Illinois Central will not recognize
the federation.

The federation officials will attempt
to deliver the vote to the Illinois Cen-
tral next week. If they are refused
recognition, the advisory board says,
the board will take up the question
of calling a strike.

BRIDGE MATTER IS STILL UNDER CONSIDERATION

(Continued from page 1.)

Hatch to remove a residence from 25
S. Summit street to Sheridan avenue.

A request from Mrs. H. E. Dickin-
son that the city buy field notes made
by her husband, H. E. Dickinson, at
a reasonable price was on motion of
Ald. Worden referred to the commit-
tee on Ways and Means.

On motion of Ald. Whitman the ac-
ceptance of oath and office of Jerome
Allen, City Surveyor, was received
and filed.

Jerome Allen reported that he had
prepared a plat and diagram of the
proposed cellar and sanitary sewer
on Prospect avenue as directed by the
Council and in accordance with the
requirements of Section 150 of the
City Charter and that the same have
been filed in the office of the City
Clerk.

By unanimous vote the sewer which
was requested some time ago on
Pearson street and which has been
under consideration of the Commis-
sioners of Public Works, was ordered,
upon recommendation for such action
by the commissioners.

Special Assessors Hutchinson, Berg
and Campbell reported that the roll

for the sewer to be constructed on
Upper Ellis street is completed and
has been filed with the City Clerk.
Notice of same is ordered to be pub-
lished later.

Nothing definite has as yet been
done about the M. C. railroad crossing
which has been in bad repair for
some time, further than the forward-
ing to Detroit of the petition filed
with the Council a short time ago,
together with a request that some im-
mediate action be taken. City At-
torney Brown states that he expects
a reply in the early future at which
time he will be able to further advise
the city of the railroad company's
attitude in the matter.

The question as to whether Pearson
street is really a street or merely an
alley, and which was referred to the
City Attorney at a recent meeting, has
been definitely settled in Mr. Brown's
mind and according to a report filed
with the Council Wednesday night,
it is a real street and the residents
on it are entitled to all privileges and
benefits allowed any other street. In
view of these facts the Council has a
right to carry out the report of the
Streets and Walks Committee and vote
upon their recommendations.

Attorney Brown also filed a report
on the building, erected contrary to
the city fire ordinance in the rear of
the Hutchins' store, and stated that
the matter had been brought to the
attention of Mr. Hutchins and compli-
ance with the wishes of the city may
be expected.

The attorney also returned reports
upon several bills in question. He
recommended payment to Groves &
Leas, Phoebe Robtoy, George Spears
and J. E. Engle. The city is also
bound to pay the bill of J. H. Dick-
son, Wallace and Clarke's bill is being
held for an itemized account and the
bill of Dr. Post is referred to the
county for the portion applying to the
care of smallpox patients, the balance
will be paid by the city.

The painting of the bridge at the
Peninsular Paper Co. mill will be left
to the highway commissioner of Yp-
santi township in compliance with
his request and one half of the cost
of the work will be met by the city.

The list of reports was closed with
one from Sidewalk Inspector Seymour.
He reported bad spots in several
walks including Miss Norton's, 510
Pearl street; Joe Forbes', corner Pros-
pect and Towner, and John Howland's,
on Oak street. The report was re-
ferred to the Committee on Streets
and Walks.

Does Your Back Ache?

If you are a woman and you have this symptom get
Lydia E. Pinkham's Vegetable Compound without delay.
Backache seems an invention of the evil one to try
woman's souls. Only those who suffer this way can under-
stand the wearing, ceaseless misery.

We ask all such women to read the following letter
for proof that Mrs. Pinkham's medicine cures backache
caused by woman's diseases.

Morton's Gap, Kentucky.—"I suffered two
years with female disorders, my health was very
bad and I had a continual backache which was
simply awful. I could not stand on my feet long
enough to cook a meal's victuals without my
back nearly killing me, and I would have such
dragging sensations I could hardly bear it. I
had soreness on each side, could not stand tight
clothing, and was irregular. I was completely
run down. On advice I took Lydia E. Pink-
ham's Vegetable Compound and Liver Pills and
am enjoying good health. It is now more than
two years and I have not had an ache or pain
since. I do all my own work, washing and
everything, and never have the backache any more. I think your
medicine is grand and I praise it to all my neighbors. If you
think my testimony will help others you may publish it."—Mrs.
Ollie Woodall, Morton's Gap, Kentucky.

Lydia E. Pinkham's Vegetable Compound has made
thousands of cures of such cases. You notice we say has
cured thousands of cases. That means that we are telling
you that it *has* done, not what we *think* it will do. We
are stating facts, not guesses.

We challenge the world to name another remedy for wo-
man's ills which has been so successful or received so many
testimonials as has Lydia E. Pinkham's Vegetable Compound.

For 30 years Lydia E. Pinkham's Vegetable
Compound has been the standard remedy for
female ills. No sick woman does justice to
herself who will not try this famous medicine.
Made exclusively from roots and herbs, and
has thousands of cures to its credit.

Mrs. Pinkham invites all sick women
to write her for advice. She has
guided thousands to health free of charge.
Address Mrs. Pinkham, Lynn, Mass.
